## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. Claims 1 -18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 10, line 9 -12, the recitation "splitting said edit list ...." is unclear as being that how one edit list can be split to the same edit list .

In claims 1 and 10, line 11, there are multiple antecedent base for "said edit list ", therefore it is unclear whether "said edit list " at line 11 being referencing to "edit list" recited at line 5 or "edit list" recited at line 9.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Reimer et al (5,781,730).

Art Unit: 2616

Regarding claim 1, Reimer discloses a materials sending apparatus for creating an edit list of an material including one or both of video data and audio data and sending said material, comprising:

edit list creating means for creating an edit list containing information associated with an edit point of said material and information associated with a destination on which said material is recorded (column 9,line 60 to column 10, line 48) ;

reconfiguring means for splitting said edit list for each recording destination (query from a user device) on which said material is recorded and reconfiguring said edit list for said each recording destination (columns 15 and 16); and

materials output means for outputting said material edited on the basis of the reconfigured edit list material send to each user (column 16).

Method claim 10 corresponds to apparatus claim 1. Therefore, method claim 10 is rejected by the same reason as applied to apparatus claim 1.

### ***Allowable Subject Matter***

4. Claims 2-9 and 11-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

Art Unit: 2616

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tanaka et al , Ohmori , Savoie and Ebisawa teach apparatus for creating edit list and processing the material based on edit list
